H.R.

To elevate the teaching profession through systemic innovations in teacher recruitment and retention to ensure that students, especially those from low-income families, are taught by excellent, well-prepared, and well-supported teachers, and for other purposes.

IN THE HOUSE OF REPRESENTATIVES

Mrs. Davis of California (for herself and Mr. Scott of Virginia) introduced the following bill; which was referred to the Committee on

A BILL

To elevate the teaching profession through systemic innovations in teacher recruitment and retention to ensure that students, especially those from low-income families, are taught by excellent, well-prepared, and well-supported teachers, and for other purposes.

- 1 Be it enacted by the Senate and House of Representa-
- 2 tives of the United States of America in Congress assembled,
- 3 SECTION 1. SHORT TITLE.
- 4 This Act may be cited as the "Innovations to Recruit
- 5 and Retain Excellent Teachers Act".

1 SEC. 2. FINDINGS.

- 2 Congress finds the following: 3 (1) The rise of teacher shortages found across 4 the Nation, particularly in high-needs schools and 5 high-needs fields, including special education, 6 STEM, and English language learners, threatens the 7 ability of schools to ensure our Nation's students are 8 prepared to participate in the 21st century work-9 force. 10 (2) Enrollment in educator preparation pro-11 grams has dropped significantly in recent years, 12 jeopardizing the workforce pipeline at a time when 13 a large portion of the current workforce is set to re-14 tire. 15 (3) High-needs schools and field experience ele-16 vated levels of teacher turnover, which negatively af-17 fects student achievement and school culture. 18 (4) Teacher retention is often undermined by 19 low wages, poor working conditions, lack of suffi-20 cient resources and insufficient supports, which in-21 clude mentoring, inductions, meaningful professional 22 development, and career advancement opportunities. 23
 - (5) Our Nation's schools are experiencing a severe diversity gap that negatively impacts student achievement and school culture—50 percent of current students are from minority groups while only

26

1	18 percent of teachers are, according to a 2016
2	study by the Brookings Institute.
3	(6) According to a 2016 study by the Learning
4	Policy Institute, America is on the brink of a teacher
5	shortage crisis, propelled by a decrease of 240,000
6	teachers in the last five years. The Learning Policy
7	Institute predicts that, unless teach workforce pat-
8	terns change, our schools will face a 100,000 teacher
9	shortage annually.
10	(7) High-needs schools are often served by high
11	percentages of inexperienced, ineffective, and out-of-
12	field teachers, which can negatively impact both
13	teacher retention and student achievement.
14	(8) Certain types of local educational agencies
15	including those that are rural and those that are
16	high-poverty, are uniquely impacted by challenges of
17	recruitment and retention, making targeted support
18	to address the unique challenges faced by certain
19	types of local educational agencies critical.
20	(9) Structured, well-implemented career contin-
21	uums for teachers that include teacher leadership
22	options (such as hybrid roles whereby expert teach-
23	ers both teach and contribute other skills such as
24	mentoring) have a positive impact on teacher re-
25	cruitment and retention.

1	(10) Principals and other school leaders who
2	are skilled in supporting teachers and teacher lead-
3	ership roles are critical to the success of teaching
4	and learning.
5	(11) Stakeholders at the Federal, State, and
6	local levels must make targeted, purposeful efforts to
7	address these challenges to elevate, strengthen, and
8	build the capacity of the teaching profession.
9	SEC. 3. PURPOSES.
10	The purposes of this Act are as follows:
11	(1) To transform the profession of teaching to
12	ensure that every school, including high-needs
13	schools, provides a rewarding, sustainable, and suc-
14	cessful experience for all teachers through—
15	(A) strengthening recruitment of excellent
16	and diverse teacher candidates;
17	(B) supporting stronger teacher entry
18	training and onboarding; and
19	(C) increase teacher retention rates
20	through the provision of high quality profes-
21	sional development, improved working condi-
22	tions, professional leadership opportunities, and
23	improved compensation systems.
24	(2) To study best practices for recruiting and
25	retaining a diverse and excellent teacher workforce,

1	reducing beginning teacher turnover and turnover
2	due to low salaries, filling teacher vacancies in high-
3	need areas and in shortage subjects, providing better
4	pay and additional leadership opportunities to teach-
5	ers, and improving working conditions and teacher
6	satisfaction overall.
