* Totals are based on an unduplicated borrower count and may not be the sum of the numbers above. Since some students borrower in more than one state, the average by state tends to be lower than the overall average. All calculations are for estimates of Stafford loans made in AY2013-14 and assume the borrower starts making payments immediately on July 1, 2014. Loans are repaid based on the expected repayment period for the average Stafford borrower of 12 years.
